Goshala that lends a divine air
to the community

This is about reliving the lost virtues of a bygone era that remained unaffected by the nature-depleting and nature-wrecking human interventions

A village community cannot be complete without a Goshala. As today pure milk has become a thing of the past, the Goshala at Prakruthi Farms serves as a source of organic, unadulterated milk and milk products. You can not only enjoy nutritious, authentic milk, but also get to benefit from the by-products of cattle farming that sustain agro-communities.
